</table>

2. HAZARD IDENTIFICATION

ROUTE OF ENTRY Absorption, Eye contact, Ingestion, Inhalation, Skin contact.

CARCINOGENIC STATUS Not considered carcinogenic by NTP, IARC, and OSHA.

TARGET ORGANS Eye, Skin, Liver

HEALTH EFFECTS – EYE Direct contact may cause mild irritation.

HEALTH EFFECTS – SKIN Material may cause moderate irritation.

HEALTH EFFECTS – INGESTION Low ingestion hazard in normal use. Repeated ingestion or swallowing large amounts may injure internally.

HEALTH EFFECTS – INHALATION Vapor may irritate nose and throat. Vapor overexposure may cause drowsiness and may injure the liver.

NFPA HMIS

5-MINIMAL; 4-SLIGHT; 3-MODERATE; 2-HIGH; 1-EXTREME

</table>

4. FIRST AID MEASURES

FIRST AID – INHALATION Remove from exposure. Obtain medical attention immediately.

FIRST AID – SKIN Remove from skin and wash thoroughly with soap and water. Get medical attention if irritation or other ill effects persist.

FIRST AID – EYE Immediately flush with water for 15 minutes.

FIRST AID – INGESTION Obtain medical attention.

INFORMATION FOR DOCTOR

Most important symptoms and effects, both acute and delayed.

No further relevant information

Indications of any immediate medical attention and special treatment needed.

No further relevant information available.

5. FIRE FIGHTING MEASURES

CONDITIONS OF FLAMMABILITY Minute quantities of flammable hydrogen gas can accumulate. Adequately ventilate to maintain vapors well below flammability limits.

EXTINGUISHING MEDIA Use water spray, foam, dry chemical or carbon dioxide. Be aware of the possibility of re-ignition. Keep containers and surroundings cool with water spray.

SPECIAL HAZARDS OF PRODUCT This product may give rise to hazardous fumes in a fire. Be aware of possibility of re-ignition. Containers may explode in heat of fire. Dangerous when exposed to heat or flame.
PROTECTIVE EQUIPMENT FOR FIRE FIGHTING
Wear full protective clothing and self-contained breathing apparatus.

EXPLOSION DATA – SENSITIVITY TO IMPACT
NO

EXPLOSION DATA – SENSITIVITY TO STATIC DISCHARGE
YES

6. ACCIDENTAL RELEASE MEASURES

SPILL PROCEDURES
Contain and absorb using earth, sand or other inert material. Transfer into suitable vented containers for recovery or disposal. Small amounts of silicone may present a slip hazard.

PERSONAL PRECAUTIONS
Eliminate all sources of ignition. Vapors can accumulate in low areas. Consider need for evacuation.

ENVIRONMENTAL PRECAUTIONS
Prevent the material from entering drains or watercourses. Notify authorities if spill has entered watercourse or sewer or has contaminated soil or vegetation.

REFERENCES TO OTHER SECTIONS
See Section 7 for information on safe handling
See Section 8 for information on personal protection equipment
See Section 13 for disposal information

7. HANDLING AND STORAGE

HANDLING
Use in well-ventilated area. Use local exhaust ventilation. Product evolves flammable ethyl alcohol on exposure to water or humid air. Control ethanol within exposure guidelines or use respiratory protection. Avoid inhaling vapor. Avoid contact with eyes, skin and clothing. Do not take internally. Keep container tightly closed when not in use.

STORAGE
Store away from sources of heat or ignition. Storage area should be: cool, dry, well ventilated, out of direct sunlight, away from incompatible materials. DO NOT FREEZE.

INFORMATION ABOUT PROTECTION AGAINST EXPLOSIONS AND FIRES:
Keep ignition sources away – Do NOT Smoke
Protect against electrostatic charges

SPECIFIC END USE(S)
No further relevant information available

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

ENGINEERING CONTROL MEASURES
Exposure to this material may be controlled in a number of ways. The measures appropriate for a particular worksite depend on how the material is used and on the potential for exposure. If engineering controls and work practices are not effective in preventing or controlling exposure, then suitable personal protective equipment, which is known to perform satisfactorily, should be used.

RESPIRATORY PROTECTION
The specific respirator selected must be based on the airborne concentration found in the workplace and must not exceed the working limits of the respirator. The following protection is recommended: Respirator equipped with an organic vapor cartridge.

HAND PROTECTION
Full-length gloves should be worn during all handling operations. Neoprene gloves.

EYE PROTECTION
Chemical goggles should be worn during all handling operations to protect against splashing.

BODY PROTECTION
Discard contaminated protective equipment. If there is danger of splashing, wear overall or apron.

PROTECTION DURING APPLICATION
During application, adequate ventilation must be provided. Mix in a well-ventilated area. If ventilation is poor, wear respiratory protection. During application, flames and unsealed lights must be extinguished and adequate ventilation must be provided.

9. PHYSICAL AND CHEMICAL PROPERTIES

### 11. TOXICOLOGICAL INFORMATION

**EFFECTS OF ACUTE EXPOSURE**

Vapors may be irritating to the nose, throat, upper respiratory tract and lungs. Short exposure to skin causes no known adverse effects.

**EFFECTS OF CHRONIC EXPOSURE**

May irritate skin, direct contact with eyes irritates with redness and swelling.

**EXPOSURE LIMITS**

NA

**IRRITANCY**

Mild irritation expected

**SENSITIZATION**

No

**CARCINOGENICITY**

No known effect in humans

**REPRODUCTIVE TOXICITY**

No known effect in humans

**TERATOGENICITY**

Prolonged overexposure to Ethanol has caused human birth defects.

**MUTAGENICITY**

NA

**TOXICOLOGICALLY SYNERGISTIC PRODUCTS**

NA

### 12. ECOLOGICAL INFORMATION

**MOBILITY**

Some of the product will leach into soil. The product will dissolve in water. Complete information is not yet available.

**PERSISTENCE/DEGRADABILITY**

The product is expected to biodegrade slowly.

**BIO-ACCUMULATION**

Product may bioaccumulate to a limited extent.

**ECOTOXICITY**

Slight toxicity away from site of leak. Moderately high-localized toxicity.

**RESULTS of PBT and vPvB Assessment**

PBT: N/A

vPvB: N/A

### 13. DISPOSAL CONSIDERATIONS

**PRODUCT DISPOSAL**

Absorb product on an inert material (sand or earth) and transfer absorbed product into a vented waste container. Do not incinerate closed containers. Dispose of in accordance with all applicable local and national regulations.

**CONTAINER DISPOSAL**

Labels should not be removed from containers until they have been cleaned. Do not cut, puncture or weld on or near to the container. Do not incinerate closed containers.

**UNCLEANED PACKAGINGS**

Recommendation: Disposal must be made according to official regulations

### 14. TRANSPORTATION INFORMATION

15. REGULATORY INFORMATION

WHMIS CLASSIFICATION: CLASS B, DIV.6 – Reactive flammable material
: CLASS D, DIV.2, SUBDIVISION A-Very toxic material.
: CLASS D, DIV.2, SUBDIVISION B-Material causing other toxic effects.

CEPA STATUS (DSL) : All of the ingredients of this product are listed on the Domestic Substances List.
This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all the information required by CPR.

16. OTHER INFORMATION

HAZARD RATING (HMIS) | HEALTH: 3 | FLAMMABILITY: 5 | REACTIVITY: 5
1-MINIMAL; 2-SLIGHT; 3-MODERATE; 2-HIGH; 1-EXTREME
