</tbody>
</table>

2. HAZARDOUS IDENTIFICATION

ROUTE OF ENTRY Eye contact, Ingestion, Inhalation, Skin contact.
CARCINOGENIC STATUS Not considered carcinogenic by NTP, IARC, and OSHA.
TARGET ORGANS Eye, Skin, and lungs
HEALTH EFFECTS – EYE Moderate irritation expected.
HEALTH EFFECTS – SKIN Moderate irritation expected.
HEALTH EFFECTS – INGESTION May cause irritation to the mouth, esophagus and stomach.
HEALTH EFFECTS – INHALATION Spray mist is irritating to the respiratory system.

NFPA HEALTH FLAMMABILITY REACTIVITY PERSONAL PROTECTION
3-MINIMAL; 4-SLIGHT; 3-MODERATE; 2-HIGH; 1-EXTREME

3. COMPOSITION / INFORMATION ON INGREDIENTS

</tbody>
</table>

4. FIRST AID MEASURES

FIRST AID – INHALATION Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Obtain medical attention.
FIRST AID – SKIN Immediately flood the skin with large quantities of water. Remove contaminated clothing and shoes. Obtain medical attention.
FIRST AID – INGESTION If swallowed, DO NOT INDUCE VOMITING. Obtain medical attention immediately. If victim is fully conscious, give a cupful of water. Never give anything by mouth to an unconscious person.
FIRST AID – EYE Immediately flood the eye with plenty of water for at least 15 minutes, holding the eye open. Obtain medical attention.

INFORMATION FOR DOCTOR

Most important symptoms and effects, both acute and delayed.
No further relevant information

Indications of any immediate medical attention and special treatment needed.
No further relevant information available.

5. FIRE FIGHTING MEASURES

CONDITIONS OF FLAMMABILITY Non-flammable. Will not support combustion.
EXTINGUISHING MEDIA Is compatible with all extinguishing media.
SPECIAL HAZARDS OF PRODUCT Dries to form glass film which can easily cut the skin. Spilled material is very slippery. Can etch glass if not promptly removed.
PROTECTIVE EQUIPMENT FOR FIRE FIGHTING Wear full protective clothing when this material is present in the area of the fire.
EXPLOSION DATA – SENSITIVITY TO IMPACT N/A
EXPLOSION DATA – SENSITIVITY TO STATIC DISCHARGE N/A
6. ACCIDENTAL RELEASE MEASURES

SPILL PROCEDURES
Small spills – Mop up and neutralize liquid, dispose in accordance with federal, provincial and local regulations or permits. Large spills – Isolate hazard area. Do not touch or walk through spilled material. Isolate, dike and store discharged material, if possible. Use sand or earth to contain material. If containment is impossible, neutralize contaminated area and flush with large quantities of water.

PERSONAL PRECAUTIONS
Wear chemical goggles, body-covering protective clothing, chemical resistant gloves and rubber boots. Use a NIOSH-approved dust and mist respirator where spray mist occurs.

ENVIRONMENTAL PRECAUTIONS
Prevent the material from entering drains or watercourses. Notify authorities if spill has entered watercourse or sewer.

REFERENCES TO OTHER SECTIONS
See Section 7 for information on safe handling
See Section 8 for information on personal protection equipment
See Section 13 for disposal information

7. HANDLING AND STORAGE

HANDLING
Avoid contact with eyes, skin and clothing. Avoid breathing mist. Keep container closed. Promptly clean up spills.

STORAGE
Keep container closed. Store in clean steel or plastic containers. Separate from acids, reactive metals and ammonium salts. Storage temperature 0-95 deg C. Do not store in aluminum, fiberglass, copper, brass, zinc or galvanized containers.

INFORMATION ABOUT PROTECTION AGAINST EXPLOSIONS AND FIRES:
Keep ignition sources away – Do NOT Smoke
Protect against electrostatic charges

SPECIFIC END USE(S)
No further relevant information available

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

ENGINEERING CONTROL MEASURES
Use with adequate ventilation. Keep containers closed. Safety shower and eyewash fountain should be within direct access.

RESPIRATORY PROTECTION
Use a NIOSH-approved dust and mist respirator where spray mist occurs. Observe Provincial regulations for respiratory use.

HAND PROTECTION
Full-length gloves should be worn during all handling operations. Neoprene gloves.

EYE PROTECTION
Chemical goggles should be worn during all handling operations to protect against splashing.

BODY PROTECTION
Discard contaminated protective equipment. If there is danger of splashing, wear overall or apron.

PROTECTION DURING APPLICATION
During application, adequate ventilation must be provided. Mix in a well-ventilated area. If ventilation is poor, wear respiratory protection. Dries to form glass film which can easily cut the skin. Spilled material is very slippery. Can etch glass if not promptly removed.

11. TOXICOLOGICAL INFORMATION

| EFFECTS OF ACUTE EXPOSURE                     | Moderate irritation to the eyes and skin is expected. |
| EFFECTS OF CHRONIC EXPOSURE                  | May cause dermatitis and irritation on repeated contact. |
| EXPOSURE LIMITS                              | NA                                                       |
| IRRITANCY                                    | Moderate irritation expected                             |
| SENSITIZATION                                | NA                                                       |
| CARCINOGENICITY                              | Not listed as a carcinogen by IARC, NTP or OSHA.         |
| REPRODUCTIVE TOXICITY                        | NA                                                       |
| TERATOGENICITY                               | NA                                                       |
| MUTAGENICITY                                 | NA                                                       |
| TOXICOLOGICALLY SYNERGISTIC PRODUCTS         | NA                                                       |

12. ECOLOGICAL INFORMATION

| MOBILITY                                       | Sinks and mixes with water. Diluted material rapidly depolymerizes to yield dissolved silica in a form that is indistinguishable from natural dissolved silica. |
| PERSISTENCE/DEGRADABILITY                     | This product is not persistent in aquatic systems, but its high pH when undiluted or unneutralized is acutely harmful to aquatic life. |
| BIO-ACCUMULATION                               | Neither silica nor sodium will appreciably bioconcentrate up the food chain. |
| ECOTOXICITY                                    | The following data is reported for sodium silicate on a 100% basis: A 96 hour median tolerance for: Fish (Gambusia affinis) of 2320 ppm; Water fleas (Daphnia magna) of 247 ppm; Snail eggs (Lymnea) of 632 ppm; (Amphipoda) of 160 ppm. This product contains approximately 7 - 13% sodium silicate. |

RESULTS of PBT and vPvB Assessment
PBT: N/A
vPvB: N/A

13. DISPOSAL CONSIDERATIONS

| PRODUCT DISPOSAL                             | Absorb product on an inert material (sand or earth) and transfer absorbed product into a waste container. Dispose of in accordance with all applicable local and national regulations. |
| CONTAINER DISPOSAL                           | Labels should not be removed from containers until they have been cleaned. Empty containers may contain hazardous residues. Dispose of containers with care. |

UNCLEANED PACKAGINGS
Recommendation: Disposal must be made according to official regulations

14. TRANSPORTATION INFORMATION

| CANADA                                         | TDG CLASSIFICATION |
| HAZARD LABEL                                  | NOT REQUIRED       |
| MARINE POLLUTANT                              | NOT REGULATED, Keep From Freezing |
| SPECIFIC PRECAUTIONS FOR USER                 | NO                 |

15. REGULATORY INFORMATION

| CEPA STATUS (DSL)                             | All of the ingredients of this product are listed on the Domestic Substances List. |
| This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all the information required by CPR. |

SDS REVISION DATE | October 9, 2018

Provided data is offered in good faith as typical values and not as a product specification. No warranty, either express or implied, is hereby made. The recommended industrial hygiene and safe handling procedures are believed to be generally applicable, however, each user should review these recommendations.
